Spray Equipment and Scarifiers

PROVEN QUALITY. LEADING TECHNOLOGY.

▶ ABOUT GRACO

Graco is a world leader in fluid handling systems and is a renowned quality brand name with almost 100 years experience in moving, measuring, controlling, dispensing, mixing and applying a wide range of fluids and viscous materials. Processing food and cosmetics, applying coatings on walls, furniture, cars, boats, trains and airplanes, marking of lines on roads and sports fields, spraying insulation foam, sealing glass or gluing boxes, lubricating machinery – on-road or off-road, transferring chemicals from A to B, cleaning with high pressure... Graco's innovative technologies are designed to handle these fluids and enable you to achieve your application objectives successfully.

www.gracostripping.com

Every day, striping contractors have the daunting task to deliver high quality marking within the most cost effective deadlines. Since the introduction of our first airless line striper in 1990, Graco has developed an impressive range of solutions, based upon the specific needs of our customers. From airless paint to thermoplastic materials, from mechanical to hydraulic technologies and from walk-behind to ride-on concepts, our systems deliver! We understand that very often the quality of the finish is in the preparation. That's where our scarifier options come into the picture.

Airless Line Striping

Airless painting technology is primarily known for its speed of application. In combination with sharp and crisp line definition, Graco's range of innovative LineLazer systems ensure high quality jobs within the most efficient timeframe. To complete the package, note that Airless systems are really easy to clean.

Thermoplastic Striping

In areas with heavy traffic, the durability of road marking is a key priority. Traffic control typically needs to reduce flow obstruction to a minimum. Using thermoplastic material has proven to increase significantly the long term quality of the line. The record drying time of this application contributes greatly to smooth traffic conditions. Technologies like Graco's on-board melting system and SmartDie applicators don't just simplify the process, they also offer the control you need of expected line thickness.

► THERMOPLASTIC APPLICATIONS	50 - 59

Line Removal

A high quality line is like the cherry on the cake. Using black camouflage paint or adding layer on layer often results in old markings showing through or crisp new lines cracking early. Road safety highly depends on line visibility. Removing existing lines and levelling surfaces brings the solution, delivering promises made. Discover our walk-behind and ride-on options in the GrindLazer section.

The Fifth Generation of Line Striping has arrived.

Graco, the first company to offer airless spray technology is now the first again. With the introduction of LineLazer V, now striping contractors can have truck-like features in a walk-behind striper. How? New automatic and semi-automatic striping technology with the push of a button. Breakthrough innovations in the new Auto-Layout II System, EasyMark Gun adjustment system and Data Logging, as well as the new LiveLook Display, clearly position LineLazer V as the preferred choice for quality, performance and productivity.

Typical Applications

PARKING LOTS

As larger lots become more popular, you can finish them faster and more efficiently with the LineLazer airless striper.

AIRPORTS

Airports offer professional striping contractors opportunities to add on to their existing striping jobs. The LineLazer System is sure to have the right striping solution.

CONSTRUCTION ZONES

Construction zones offer additional incremental striping opportunities. The LineLazer striper's smaller size allows it to quickly put down stripes, insuring a safe construction zone.

INTERSECTIONS/ROADS

From arrows and crosswalks to entire intersections, there are many ways to grow your business with LineLazer airless striper.

► Choose the RIGHT SERIES for all your striping applications

Graco's fifth generation of line strippers are configured into three unique packages designed to deliver valuable features allowing you to complete jobs faster, more efficiently and with more accuracy. Whether you need the everyday reliability of our **Standard Series**, the increased speed and productivity of the **HP Automatic Series**, or the versatility of the high production **HP Reflective Series**, Graco offers the perfect striper that's designed specifically for you.

Enhancing Line Quality

► A.V.R.S. = Advanced Vibration Reduction System

Removes engine vibration and takes line quality to the next level.

without A.V.R.S.

with A.V.R.S.

How does it work?

Uneven road surfaces and a running engine produce vibrations. These are transferred to the striping gun(s) and thus prevent the gun(s) from maintaining a perfectly fixed angle over the surface.

New Concept

Graco invents the AVRS system which reduces vibrations up to 60%. Less vibrations simply result in better quality lines.

A.V.R.S.

Reduced vibration is achieved with an exclusive pump sprayer, a mounting system and a new single gun bar holder.

► Rear Gun Mounting

Rear Gun Mounting

Photo on the right shows the result obtained when striping 2 lines simultaneously: one gun mounted at the front and a second at the rear. Same machine, same speed, same paint.

Straighter Lines

Lining up the gun(s) with the two rear wheels and axles results in straighter lines.

Front & Rear Mount

Mounting the gun at the front of the machine is a requirement to stripe up to the curb on a parking lot. However, for long line pavement applications, mounting the gun at the rear improves straightness and consistency of the lines.

Easy

The rear gun mounting option eliminates the need to reverse the mount of the engine and the handle.

Front
mount

Rear
mount

► Easy Out™ Pump Filter

The Easy Out pump filter is designed to filter from the inside out so filters won't get stuck or collapse when filled with dirt or debris.

- Large 125 cm² filtering area reduces tip clogs and ensures a quality finish
- Vertical filter removes with the cap for less mess

► Green Laser Dot Accessory

Improve your striping accuracy with our Green Laser Accessory

- Connects to on-board battery and can be mounted near the gun
- Simple switch operation on the handle bar

Endurance™ Pump: Prolonging Pump Life

► Graco's Long Life Chromex Endurance Pump sets the industry standard

- Long-life V-Max Blue™ packings
- Durable Chromex™ rod and stainless steel sleeve deliver superior reliability and life

(A) Adjustable Packing Nut

- When the upper packings are worn out, paint leaks out and pressure drops.
- With Graco, you can finish the job by tightening the nut instead of stopping for repair.

(B) Quick Knock-Off™

- To remove the risk of downtime, replace the complete pump, on the job, in about 15 minutes.

(C) "V"-Max Blue™ Packing

- UHMWPE
 - > Ultra High Molecular Weight Polyethylene
 - > Compatible with solvent and water-based coatings.
- V-Max Design means the packings constantly adjust to pressure and wear = longer lasting.

(D) QuikAccess™

- Graco pumps are field serviceable. Access parts with only a hammer and a wrench:
 - Access inlet, - Access outlet.
- No downtime and costly repairs.

(E) EasyFlow™

- All fluid passages (SST) are machined with smooth curves.
- Less fluid frictions for more flow and for heavier coatings.

LineLazer™ V Adjustment Systems

► DualComfort Handle Bar System

Improved comfort for all day striping

- Easily adjust the handle bar angle and height
- Sturdy and solid design
- Perfect fit for all size users

► EasyMark Gun Adjustment System

Gun Adjustment has never been easier

- Markings on gun bars for easy operation
- Removable "G-Clamp" is Industry-First
- New Dual Gun Clamp for solid gun control
- Provides perfect 2-gun alignment

► EZ Align™ Wheel System

Improved Front Wheel Adjustment System

- Allows simple realignment of front wheel to maintain "straight" tracking
- No special tools needed to adjust
- Quick and easy "Fine Tune Adjustment"

► HP Automatic Double Gun Trigger System

Manual or Automatic Gun control, you choose how to operate your guns!

- Individual gun control system
- Manual control via lever
- Automatic control via push button
- Direct AutoLayout via Auto Guns

See the manual of your LineLazer for more details and instructions

LineLazer™ V Adjustment Systems

▶ LineLazer V LiveLook Display with SmartControl™

LineLazer V comes delivered with an all new LiveLook Display, providing you all your striping information at a glance. The Standard Series allows you to track and show every aspect of your striping job while the HP Automatic Series offers you much more capabilities like Auto and Semi-Auto Guns, Jobsite Data Logging and AutoLayout™.

▶ LineLazer V Standard Series: 3900 – 5900 – 200hs

Track, measure, and control every aspect of your striping job.

Set the unit to your preferred measurements, indicating volume in gallons or liters; pressure in psi, bar or MPa; distance in feet or meters which also changes line thickness in mils or microns and speed in mph or kph.

▶ LineLazer V HP Automatic Series: 3900 – 5900 – 200hs

The HP Automatic Series comes equipped with Automatic guns allowing you to step up in the Road Marking business. Program your unit for automatic or semi-automatic skip-lines, Auto-Layout functionality with built-in parking lot calculators and much more.

▶ Main Screens

Main Striping Screen

- Speed
- Pressure
- Liters
- Line thickness
- Line width
- Skip line (HP Automatic and HP Reflective series)

Measure Mode

Measure distances using your unit

Layout Mode

(HP Automatic and HP Reflective Series)

- Premark your jobsite
- Lay out a parking lot
- Calculate straight parking lots
- Calculate angled parking lots

Settings/Information

- Calibrate your unit
- Set your preferences
- Unit Information
- Language settings
- Marker mode (HP Automatic and Reflective only)

▶ Calibration Screen

Calibrate your unit for accurate measurements on each jobsite:

- Speed indication
- Line Thickness calculation
- Measure Mode
- Auto guns (HP Automatic and HP Reflective Series)

See the manual of your LineLazer for more details and instructions

LineLazer™ V Adjustment Systems

► LineLazer V Automatic Guns

Putting down skip lines has never been easier with automatic guns. With Auto Mode and Semi-Auto Mode, you can control any skip line requirement on jobsites.

Striping truck features now on a walk-behind unit!

- Program guns to start and stop automatically to deliver perfect lines every time!
- Stripe skip lines with a simple push of a button
- Push button control eliminates hand lever fatigue
- Use semi-automatic mode for single lines with fixed lengths

Select the gun that you want to use

Activate the guns for spraying

Automatic guns allow you to spray different types of road markings

► LineLazer V AutoLayout II System

Whatever the requirements are for a parking lot layout, AutoLayout II on your LineLazer V HP Automatic or HP Reflective series can limit your manual measuring work and lay out the dots where you want it to directly from the gun.

Finish Jobs Faster

- Up to 30% faster with walk behind strippers
- Up to 50% faster when using the LineDriver attachment

Less Hassle, Less Fatigue

- No bending to mark the lines
- Eliminates the strain to read the tape measure
- Takes the hassle out of calculating distances and stall sizes
- Simple to use every time

Screen Overview

Layout Mode:

Use the Layout Mode screen for your Premark or Layout requirements.

Angle Calculator:

Advance in parking lots and calculate the offset for angled parking lots helping you to lay out any parking lot design.

Stall Calculator

Preset your unit to lay out parking lots. Calculate the number of stalls or the stall size.

Marker Layout Mode:

Predefine marker layouts that do not have consistent distances in between.

LineLazer™ V Adjustment Systems

► J-Log System: Jobsite Data Logging

JOB	DATE	TIME	FEET	MIN	SEC	IN	OUT	1	2
0001	25/12/2015	1:00	3:000	12	12	1	0.0	0.0	1.1
0001	25/12/2015	2:00	10:000	14	14	7	0.2	2.0	2.7
0001	25/12/2015	3:00	4:000	15	15	0	3.0	1.0	4.5
0002	25/12/2015	5:00	0	0	0	0	0.0	4.0	4.0

LineDriver™ 160 - LineDriver™ HD 200

Push and Pull Hydrostatic Driver

Transform your LineLazer, ThermoLazer and GrindLazer into a ride-on push and pull, hydrostatic driver. It doubles your production rate and improves line quality while reducing operator's fatigue.

Exclusive FlexBeam™ Break-A-Way Light System

- Break-A-Way design prevents costly repairs and keeps you on the job
- Fully adjustable for all types of low light applications

Patented Dual Foot Pedal System

- For forward and reverse. Move between jobs without having to PUSH!

Exclusive ProStart™ Engine Starting System (Only on HD 200)

- Up to 50% less pulling effort to start the engine — no more broken recoils
- Outperforms manual pull and electric start systems when the weather starts turning cooler
- Patent No. 6883633

Dual Foot Pedal System

LineDriver 160

LineDriver HD 200

LineLazer™ 3400

Mechanical Walk Behind Striper

LineLazer™ 3400

Front Swivel Wheel

Stencilling

► Applications & Materials

The LineLazer 3400 is the preferred choice for contractors who are looking for professional performance in a 1-gun striper. This striper is ideal for parking lots and seal coating contractors, schools, park and recreation departments.

► Features & Benefits

Handle Bar Design

- High-comfort design for greater control and less operator fatigue
- Contoured grips comfortably fit your hands

Easy Reach Controls

- Operator controls are located on the handle bars
- You can fine tune the striper without stopping

Front Swivel Wheel

- Provides easier “up to the curb” parking lot striping and hard-to-do curves
- Tapered locking pin design for years of dependable operation

Lightweight Gun Holder

- To minimize gun movement caused by rough pavement conditions
- Durable, extruded aluminum design
- Spring-assisted cable return for positive gun shut-off

Chromex Pump Rod

- Long life rod treatment for the most demanding materials
- Four times harder than ordinary chrome

Electronic Pressure Control

- Accurate, tight tolerance system provides excellent line quality

See page 28 for more detail

LineLazer™ V 3900 - LineLazer™ V 5900

Mechanical Walk Behind Stripers

LineLazer™ V 5900

LineLazer™ V 3900

► Applications & Materials

The LineLazer V 3900 is the airless line striping choice for professional striping contractors who want the industry's best striping unit. The LineLazer V 5900 continues to be the mid to heavy-duty striping solution for professional contractors who recognize the increased productivity this leader delivers.

► Features & Benefits

LiveLook™ Display with SmartControl™

- Tracks all aspects of your job
- Real-time information

DualComfort™ Handle Bar System

- Fits all users—easy to adjust
- Solid 4-bolt design

EZ Align Front Wheel System

- Keeps unit tracking straight
- Intuitive design

EasyMark Gun Adjustment System

- Simple guide mark system
- Easy gun on/off, front/back
- Perfect gun set up – every time

► Includes all Standard Series Features PLUS: Features & Benefits

Automatic, Semi-Automatic Guns

- Push button control for accurate stripes every time

Auto-Layout™ II

- Easy to use – cuts layout time in half
- Works directly from the gun, just turn your tip 180°

Data Logging with J-Log System

- On-board job information for “proof” of completion

On-Board Power

- 12V battery for all your accessory items

See page 28-31 for more detail on 1- and 2-gun offering in Standard and HP Automatic Series

LineLazer™ 130HS

Hydraulic Walk Behind Striper

LineLazer™ 130HS

► Applications & Materials

The LineLazer 130HS is the ultimate hydraulic airless striping unit that contractors rely on for their most challenging striping jobs. Professional striping contractors wanting hydraulic performance and proven power cannot go wrong with the LineLazer 130HS.

► Features & Benefits

Storage Compartment

- New storage area for tips, guards and miscellaneous items

DualComfort™ Handle Bar System

- Fits all users—easy to adjust
- Solid 4-bolt design

EZ Align Front Wheel System

- Keeps unit tracking straight
- Intuitive design

EasyMark Gun Adjustment System

- Simple guide mark system
- Easy gun on/off, front/back
- Perfect gun set up – every time

QuickSelect Gun Selector

- Chrome gun lever for ease of use of a 2-gun unit

Honda Power

- Contractor preferred – excellent power and proven reliability

Exclusive Easy Out Filter System

- 50 mesh filter for no plug performance
- Inside out filtering

Rear Gun Mount System

- Place the guns near the rear axle for straighter long lines and smoother curved lines

See page 28 for more detail on 1- and 2-gun offering

LineLazer™ V 200HS

Hydraulic Walk Behind Striper

LineLazer™ V 200HS

LineLazer™ V 200HS *HP Reflective*

► Applications & Materials

The LineLazer V 200HS is the high performance hydraulic striper you'll want for your most demanding jobs. It's proven history of innovative features has made it the striper of choice for contractors demanding a true workhorse. The LineLazer V 200HS is the perfect unit for large parking lot jobs, airports, and city jobs that not only require precise lines but also demand reflective beads.

► Includes all Standard Series Features PLUS: **Features & Benefits**

Automatic, Semi-Automatic Guns

- Push button control for accurate stripes every time

Auto-Layout™ II

- Easy to use – cuts layout time in half
- Works directly from the gun, just turn your tip 180°

Data Logging with J-Log System

- On-board job information for "proof" of completion

On-Board Power

- 12V battery for all your accessory items

► Includes all HP Automatic Series Features PLUS: **Features & Benefits**

Pressurized Bead System

- On-board compressor
- Pressurized bead tank
- Bead gun activates automatically with spray gun
- Bead gun with gun-delay ability
- Adjustable nozzle for bead dispensing width adjustment

See page 28-32 for more detail on 1- and 2-gun offering in Standard, HP Automatic and HP Reflective Series

LineLazer™ V 250sps

Hydraulic Ride-On Striper

LineLazer V 250sps *HP Automatic*

LineLazer V 250sps *HP Reflective*

► Applications & Materials

High performance, self-propelled striping with automatic paint guns makes the LineLazer V 250sps the preferred striper for professional contractors who demand more. This striper is ideal for large, heavy-duty line striping jobs including parking lots and road jobs.

► Features & Benefits

Automatic Gun Control System

- Manual or automatic paint guns with the push of a button

Exclusive Stand-On Platform

- Integrated platform provides an ergonomic place for standing, great view and all-day comfort

Self-Centering Front Wheel

- Eliminates one user interface for simpler operation
- Foam filled for stability

EasyMark Gun Adjustment System

- Simple guide mark system
- Easy gun on/off, front/back
- Perfect gun set up – every time

► Features & Benefits

Includes all HP Automatic Series Features PLUS:

Pressurized Bead System

- On-board compressor
- Pressurized bead tank
- Bead gun activates automatically with spray gun
- Bead gun with gun-delay ability
- Adjustable nozzle for bead dispensing width adjustment

See page 28-32 for more detail on 1- and 2-gun offering in HP Automatic and HP Reflective Series

LineLazer™ V 250dc

Hydraulic Ride-On Striper

LineLazer V 250dc HP Automatic

LineLazer V 250dc HP Reflective

► Applications & Materials

High performance, self-propelled striping with automatic paint guns makes the LineLazer V 250SPS the preferred striper for professional contractors who demand more. This striper is ideal for large, heavy-duty line striping jobs including parking lots and road jobs. Spray two colours simultaneously with Graco's new LineLazer V 250dc. Ideally suited for airports, municipalities, DOTs or anyone who needs to spray highlight lines or other dual-colour striping.

► Features & Benefits

Dual Graco Hydraulic Motors

- Graco's exclusive no-stall hydraulic motors provide uninterrupted performance

Dual Endurance Piston Pumps

- Long life pumps provide precise flow for a wide range of striping materials

Self-Centering Front Wheel

- Eliminates one user interface for simpler operation
- Foam filled for stability

EasyMark Gun Adjustment System

- Simple guide mark system
- Easy gun on/off, front/back
- Perfect gun set up – every time

► Includes all HP Automatic Series Features PLUS: Features & Benefits

Pressurized Bead System

- On-board compressor
- Pressurized bead tank
- Bead gun activates automatically with spray gun
- Bead gun with gun-delay ability
- Adjustable nozzle for bead dispensing width adjustment

See page 28-32 for more detail on 2- and 3 gun offering in HP Automatic and HP Reflective Series

LineLazer™ V 250mma 98:2

Hydraulic Ride-On 2-Component Striper

LineLazer IV 250mma 98:2
(unit shown includes optional 2nd gun kits)

► Applications & Materials

Spraying 2-component 98:2 road markings has never been more reliable with LineLazer V 250mma 98:2.

Based upon the LineLazer V 250 range, this unit provides it all: built in 98:2 mixing capabilities and Ratio Assurance, on-board storage tanks and solvent flushing capabilities.

► Features & Benefits

Automatic Gun Control System

- Manual or automatic paint guns with the push of a button

Exclusive Stand-On Platform

- Integrated platform provides an ergonomic place for standing, great view and all-day comfort

Self-Centering Front Wheel

- Eliminates one user interface for simpler operation
- Foam filled for stability

EasyMark Gun Adjustment System

- Simple guide mark system
- Easy gun on/off, front/back
- Perfect gun set up – every time

Pressurized Bead System

- Installed and ready to go

Exclusive 98:2 Mixing System

- On-Board storage tanks for MMA, BPO and solvent
- Exclusive hard-connect MMA and BPO pump design
- Mix-manifold
- Integrated mix hose for consistency in material mixing
- Ratio Assurance system

Ratio Assurance System

RoadPak™ Striping Control Box

RoadPak Striping Control Box

The Striping Control Box offers an operator simple to use controls that makes striping road jobs easy. Check your RoadPak, program skip lines, measure distances, all from within the comfort of the vehicle.

Detailed Menu

Distance Calibration

Calibrates system for extreme accuracy

Pump Calibration

Used to adjust the unit of measurement in gallons or liters

Set Gun Delays

Synchronizes paint and bead guns

Set-up

Allows user to dial in entire system for English or metric information

Marker Mode Layout

Sets space sizes up to 8 consecutive measurements

Diagnostics

Helps troubleshoot the system faster and easier

RoadView Camera System

► RoadView Camera System

Turn your RoadPak into a single user vehicle with the RoadView Camera System. It allows single users to do the jobs once reserved for the “big trucks” – all from the inside comfort of the striping vehicle.

The camera mounts on the gun arm and travels from one side of the truck to the other without adjustments. The view of the camera allows users to see from behind the paint and bead guns, which is very similar to the view from a walk behind unit.

A quick disconnect electrical system for the camera allows safe storing when not using and also allows you to switch between the standard 16 mm or optional 6 mm camera. The 16 mm camera provides a “farther-out” view, while the 6 mm camera option is a great choice for those striping contractors who prefer a “closer-in” view.

It's easy to match up old stripes with the remote, hand activated Switch System. With a push of your thumb, you control the start and stop on those tough restripe jobs.

6 mm Camera

16 mm Camera

Specifications

- LCD Monitor measurement 9 inch Diagonal: 22.9 cm x 14.5 cm x 3.2 cm
- Ratio: 16:9 Wide TFT Screen
- Camera (16 mm): 6.4 cm x 5 cm x 5 cm
- Power Source: DC 12V
- Operating Temperature: -42°C to 65°C

RoadPak™ Mount System

► RoadPak Mount System

Install your RoadPak on almost any vehicle using a Single-Hitch Mounting Frame or a Slide-In Mounting Frame. The Mounting Frame allows you to attach your gun arm to your vehicle for easy left/right spraying but comes in two easy-to-install options depending on the vehicle on which you want to install your RoadPak.

► Mount Systems

Single-Hitch Mounting Frame

A Single-Hitch Mounting Frame allows you to use your existing vehicle with little or no modifications to carry your gun bar arm with the RoadPak System.

Slide-In Mounting Frame

The Slide-in Mounting Frame allows many different vehicles to perform your road striping jobs.

RoadPak™ Units

Truck Mount Striping Systems

RoadPak 1-Pump System

RoadPak 2-Pump System

RoadPak with Accessory Frame Kit

► Applications & Materials

RoadPak System, a complete modular set-up to comply with your road striping situation. Based upon a RoadPak Module with 1 or 2 pumps, the RoadPak System is delivered in 8 different options or can be compiled to fulfil your striping needs.

► Features & Benefits

Heavy-Duty RPS 2900 Hydraulic System

- Proven performer built off of our highly reliable GH™ 833 then optimized for road striping
- No-stall design provides the productivity you get from Graco designed products
- Maximum pressure of 200 bar

Displacement Pump System

- Graco's displacement pumps have delivered outstanding results in pumping striping paint for over 20 years
- New prime valve allows you to recirculate paint keeping it mixed and ready to go

Heavy-Duty Modular Frame System

- Small frame size allows it to fit almost anywhere – from the back of a pickup or flatbed truck to the bed of a utility vehicle
- Heavy-duty steel frame is built to last
- Simple to add options you want in minutes – optimizing your striping system

Heavy-Duty Compressor

- 6.9 bar at 13.1 cfm
- 8.3 liter Accumulation Tank for air accessories such as the hand bead gun

Kohler® Power

- 18 hp Kohler engine
- Over 15 years of reliable experience

1 or 2-Pump RoadPak System

- Flexibility for those needing only 1-colour or striping contractors who are growing into 2-colour applications where it's simple to switch between yellow and white stripes with a twist of a lever

	24G634	SIMPLE GUIDE SYSTEM
	24G765	ROAD PAK BEAD TANK KIT Kit has a bead tank with regulator, mounting brackets and fasteners. It can be mounted onto the RoadPak Frame or the Accessory Frame Kit.
	24G766	RPS 2900 COMPLETE PUMP KIT Kit has an RPS 2900 Pump with all the hydraulic lines and fasteners needed to mount to the RoadPak System. Primarily to convert a 1-Pump System to a 2-Pump System.
	24G767	RPS 2900 BARE PUMP KIT Includes RPS 2900 Pump only, without any plumbing, fittings or fasteners.
	239934	PAINT TRANSFER KIT Kit used to transfer paint from one location to another. Air-driven, double-diaphragm Husky™ pump powered by the RoadPak. Includes all hoses, fittings, 208 liter drum and siphon kit.
	239935	PAINT DRUM AGITATOR KIT Kit used to mix paint in a 208 liter drum. All SST construction air-driven Twistork™ motor powered by the RoadPak air system.
	24G769	125 LITER ROTOMOLD PAINT TANK Kit includes a 125 liter paint tank, mounting brackets and fasteners. It can be mounted onto the RoadPak Frame or the Accessory Frame Kit.
	24J149	BOTTOM FEED FITTINGS KIT (FOR PAINT TANK) Kit allows user to drill a hole in the bottom of the 33 gallon paint tank and connect fittings so the material can flow out the bottom of the tank rather than being sucked out the top.

RoadPak™ Accessories

	PART NUMBER	DESCRIPTION
	24G771	6 MM CAMERA KIT Kit includes a 6 mm camera. Cable included to connect to monitor (closer in view)
	24H555	16 MM CAMERA KIT Kit includes a 16 mm camera. Cable included to connect to monitor (farther out view).
	24H612	ROADPAK MONITOR KIT Kit includes monitor, windshield mount and power plug. (See RoadView Camera System for complete system).
	24G772	ROADPAK 3 RD GUN KIT Kit comes with a dual acting paint gun, dual acting bead gun, the hardware and hoses to connect the guns to the system. It also comes with three adjustable bead deflectors.
	24G773	GUN LIFT/WINCH KIT Kit comes with a winch, the mounting brackets, and the wiring to connect it to a RoadPak System. The winch can easily be moved from one side of the vehicle to the other.
	24G774	ROADPAK Y-STRAINER KIT Kit is a Y-strainer that connects inline between the paint drum and the pump inlet.
	24G775	ROADPAK DOUBLE DROP KIT Kit is for element double drop application. It comes with one bead gun, one bead hose and fittings to connect the parts.
	24G776	WATERBORNE SIPHON KIT (RoadPak Only) Suction hose for waterborne materials.
	24G777	SOLVENT SIPHON KIT (RoadPak Only) Suction hose for oil-based materials.
	241880	DYNAMIC FRONT ARTICULATING POINTER Dynamic front articulating pointer. Excellent for those hard-to-stripe curves.
	24G979	BEAD GUN KIT Kit for a single bead gun.
	24G980	PAINT GUN KIT Kit for a single paint gun.
	287834	RPS DISPLACEMENT PUMP KIT Kit is the lower section (paint portion) of the pump.
	24G778	ROADPAK STENCIL GUN KIT
	24H585	ROADPAK ACCESSORY FRAME KIT Accessory frame that includes the hardware to connect it to the RoadPak frame.
	238957	HAND BEAD GUN KIT
	24J173	ADJUSTABLE BEAD GUN DEFLECTOR This is an adjustable bead gun deflector. Allows the user to adjust the width of the bead flow.

SPECIFICATIONS

ACCESSORIES

ThermoLazer™ Kettle Systems

A kettle system for your needs. That's what we strive for. High volume ThermoLazers with external refills or built-in heaters or a medium volume ThermoLazer with easy kettle exchange for colour changes, Graco offers it all.

► ThermoLazer 200tc Exchangeable Kettle System

Easy exchange of the kettle system allows fast colour changes. Use multiple colours on the same machine by exchanging kettles on the jobsite. No more hassle with multiple dedicated units.

► ThermoLazer 300tc Dual PaddleMax™ System

Reduce the need to constantly refill with a 135kg single chamber hopper. The single chamber design allows easy refills from an external kettle system and the Dual Paddles make mixing materials easy.

► ThermoLazer ProMelt QuadMelt™ System

Stepping up to the ProMelt QuadMelt system offers you four on-board chambers that can melt 135 kg of material in less than 1 hour, significantly increasing your daily productivity. The four chamber design offers more surface area to quickly melt thermoplastic and is supported by 100,000 BTU burners which increases melt time and productivity.

ThermoLazer™ Die Systems

From narrow over wide to double lines, choose the Die-System for your ThermoLazer: SmartDie II for ThermoLazer 300Tc and ProMelt or FlexDie for ThermoLazer 200Tc. These hardened steel dies come with an innovative, built-in line thickness adjustment system that allow you to easily dial down to the desired depth. Our Die Systems come in a variety of sizes allowing you to do narrow or wide lines or win time and money with our Double Line Systems.

BlackDie™ surface for maximum heat retention

Handle bar for easy die replacement and disassembly without tools

Thermolazer™ Units

ThermoLazer™ 200Tc

ThermoLazer 200Tc

► Applications & Materials

The ThermoLazer System, brought to you by Graco is one of the most productive and easy to use thermoplastic handliners in the industry. The ThermoLazer 200Tc is an ideal unit to expand your thermo fleet with a small push-behind unit for those small jobs.

► Features & Benefits

FlexDie™ System

- Delivers excellent line quality with exclusive deep-die, all steel construction and a no-tools change-out design

90 kg Material Kettle

- Easy-to-fill cylindrical kettle allows precise melting of thermoplastic material, and its no-tool change-out design lets you switch colours fast

18 kg Bead Hopper

- Perfectly matched to the material kettle with a superior flow design

Direct Heat System

- Direct flames and an on-board hand torch deliver maximum heat, resulting in maximum material flow

Tri-Wheel System

- Dual solid front and single solid rear wheels provide smooth, quiet operation

Adjustable Handle

- Handle easily adjusts to multiple heights

Adjustable Front Pointer

- Easily adjusts for all size dies for following all marks and creating straight lines

Bead Dispenser

- 30 cm dispenser with 2.5 cm increments allows you to "dial-in" the drop rate

ThermoLazer™ 300Tc

ThermoLazer 300Tc

► Applications & Materials

The ThermoLazer 300Tc with its 135 kg material kettle allows more striping and less time spent refilling with material, while its' EasyGlide™ Wheel Mount System makes this unit as easy to maneuver as a LineLazer.

► Features & Benefits

SmartDie II System

- Delivers excellent line quality with exclusive deep-die, all steel construction and a no-tools change out design

135 kg Material Kettle

- Easy-to-fill kettle with PaddleMax Dual mixer for improved mixing

18 kg Bead Hopper

- Perfectly matched to the material kettle with a superior flow design

Direct Heat System

- Direct flames and an on-board hand torch deliver maximum heat, resulting in maximum material flow

Adjustable Handle

- Handle easily adjusts to multiple heights

Adjustable Front Pointer

- Easily adjusts for all size dies for following all marks and creating straight lines

Bead Dispenser

- 30 cm dispenser with 2,5 cm increments allows you to "dial-in" the drop rate

ThermoLazer™ ProMelt

ThermoLazer ProMelt

► Applications & Materials

Only Graco's breakthrough technology allows you to melt 135 kg of thermoplastic on-board in less than an hour. It's like having a premelter on wheels without the cost. Finally a solution for melting and applying thermoplastic without the hassle and cost of premelters.

► Features & Benefits

ProMelt Technology

- 4 Chamber Melting System—More surface area to melt thermoplastic fast
- 100,000 BTUs—Faster melt time means more jobs get done everyday

SmartDie II System

- Delivers excellent line quality with exclusive deep-die, all steel construction and a no-tools change-out design

135 kg Material Kettle

- Easy-to-fill four chamber Quadmelt kettle system for improved heat transfer and mixing

18 kg Bead Hopper

- Perfectly matched to the material kettle with a superior flow design

Adjustable Handle

- Handle easily adjusts to multiple heights

Adjustable Front Pointer

- Easily adjusts for all size dies for following all marks and creating straight lines

Bead Dispenser

- 30 cm dispenser with 2,5 cm increments allows you to "dial-in" the drop rate

► GRINDING APPLICATIONS

GrindLazer™

FEATURES

UNITS

[GrindLazer 270](#)

[GrindLazer 390](#)

[GrindLazer 630](#)

SPECIFICATIONS

ACCESSORIES

GrindLazer features a series of benefits that offer you the most productivity and efficiency whilst reducing fatigue and stress on the job:

► Easy Drum Removal/Installation

Avoid losing time and money to replace drums. GrindLazer is designed to offer you a 3-step drum removal/installation on the job.

1. Loosen four bolts

2. Remove bolts and door

3. Remove drum assembly

► Extreme-Duty ProStart System

Starting your unit has never been this easy. GrindLazer's Extreme-Duty ProStart System is a centrifugal clutch which allows easy starting and shutting off of cutters providing one of the safest units on the market. The clutch only engages at higher rpm allowing:

- Easy-start in cold weather
- Reducing engine stress when starting the engine
- Eliminates broken recoils
- Provides a longer belt life

► InstaCut Technology

InstaCut Technology allows the user maximum control for safely engaging the cutters both on and off the surface without having to lift their hands off the handles. A hinged design frame allows for "hands-on" engagement of the cutting deck system for up or down position.

- Provides ultimate flexibility for removal and inlay
- No-tool system
- Allows deck to "float" when on uneven surfaces
- Significant vibration reduction thanks to split-design hinged frame

► DialDown Depth Control System

Where InstaCut allows you to engage the cutters, the DialDown Depth Control System allows precise cutting depths with a simple turn of the dial to adjust to the optimum depth. Fast and easy to use and to adjust for maximum productivity.

GrindLazer™ 270 - GrindLazer™ 390

GrindLazer 270

GrindLazer 390

► Applications & Materials

The GrindLazer 270 is the perfect scarifier for removing parking lot lines while the GrindLazer 390 is the contractor choice for all-around scarifying jobs including intersection markings, construction zones and side walk smoothing. With the optional LineDriver system its productivity is unmatched and means you can get more work done every day without the fatigue from walking.

► Features & Benefits

Vibration Reduction Technology

- Pneumatic air-filled tyres, comfort grips, LineLazer-like cart design combined to eliminate vibration reducing user fatigue
- Comfort grip handle bars for precise steering
- Up to 4 times less vibration than the competition

InstaCut Technology

- Offers "hands-on" engagement of the cutting deck system for up or down position
- Provides ultimate flexibility for removal
- No-tool system
- Allows deck to "float" when on uneven surfaces

DialDown Depth Control System

- "Forward Cut" precise cutting depth with multiple position depth control
- Simple and easy to "dial-down" to optimum depth

Fat Track Front Swivel Wheel

- Proven front caster wheel system makes turning fast and easy
- Manoeuvre curves better
- No need to "muscle" it while moving

EasyGlide Wheel Mount System

- Front mounted caster along with dual rear pneumatic air-filled tyres makes handling safe and as easy to manoeuvre as a LineLazer
- Pneumatic air-filled tyres helps eliminate vibration

Extreme-Duty ProStart System

- Centrifugal clutch allows easy starting and shut-off of cutters providing one of the safest units on the market today
- Easy to start in cold weather
- Eliminates broken recoils
- Provides longer belt life

TriBelt™ Drive System

- 3-cog belt design optimizes power transfer and maximum load handling
- Eliminates costly downtime

GrindLazer 630

► Applications & Materials

The GrindLazer 630 is the high production choice when it comes to the most demanding scarifier jobs. With its “Up-Cut” cutting direction, not only you are able to remove all types of lines found on parking lots or road, but now have the power to do inlay/grooving jobs. Combined with the LineDriver, you’ll finish jobs faster and more accurately than ever before!

► Features & Benefits

Vibration Reduction Technology

- Pneumatic air-filled tyres, comfort grips, LineLazer-like cart design combined to eliminate vibration reducing user fatigue
- Comfort grip handle bars for precise steering
- Up to 4 times less vibration than the competition

Extreme-Duty ProStart System

- Centrifugal clutch allows easy starting and shut-off of cutters providing one of the safest units on the market today
- Easy to start in cold weather
- Eliminates broken recoils
- Provides longer belt life

InstaCut Technology

- Offers “hands-on” engagement of the cutting deck system for up or down position
- Provides ultimate flexibility for removal and inlay
- No-tool system
- Allows deck to “float” when on uneven surfaces

LineDriver Required

GrindLazer 630 with Reverse/“Up-Cut” cutting direction requires the use of a LineDriver Propel System.

The GrindLazer 630 unit cannot operate without a LineDriver due to the ProStart safety switch interlock system.

LL5 Spray Tips: Creating Laser-Sharp Lines

► Graco's LineLazer RAC 5 SwitchTips

Specially designed for Line Striping Equipment, Graco's LL5 spray tips create clean and laser-sharp lines with no fuzzy edges. LL5 tips spray heavy waterbase to thin alkyd traffic paint and ensures consistent paint thickness, from edge to edge, less overspray and long-lasting lines.

Understanding Tips

The pump delivers:

- Paint flow
- Paint pressure

The tip defines:

- Spray angle
- Spray volume

The tip size tells the pump how hard it must work.

The Secret behind the Numbers

(All tip specifications are measured 30 cm away from the surface)

The first digit describes the angle, i.e. 6 = 60°.

Multiply first digit by 5 to get the actual fan width when spraying 30 cm away from the wall, i.e. $5 \times 6 = 30$ cm.

The 2nd and 3rd digits describe the orifice size, i.e. 21 = 0.021".

Adjusting to the Right Tip

Basic rule: when switching tips, adjust to the new fan width and new orifice size. Together. e.g.: 517 -> 619

PROBLEM	SOLUTIONS
Too much paint? 0.017" = 1.17 lpm	1. Reduce orifice size 513 0.013" = 0.7 lpm 2. Increase fan angle 717
Not enough paint? 0.017" = 1.17 lpm	1. Increase orifice size 521 0.021" = 1.8 lpm 2. Decrease fan angle 317

LL5 Spray Tips

When to replace a Tip?

A spray tip controls the amount of fluid sprayed by using different orifice sizes. The shape of the orifice on the other hand, determines the spray pattern. The chart below explains the impact of tip wear on the quality of your job.

WHAT IS TIP WEAR?

- 1)

FAN WIDTH DECREASES = MORE PASSES NECESSARY = MORE LABOUR
- +
- 2)

ORIFICE SIZE INCREASES = MORE PAINT COMES OUT = MORE MATERIAL COST
- TOTAL:

TWICE THE LABOUR! + 30% MORE PAINT FOR THE SAME SURFACE!

TIP WEAR CHART:

FAN WIDTH - NEW TIP	FAN WIDTH - WHEN WORN
5 cm	4 cm
10 cm	8 cm
15 cm	12 cm
20 cm	15 cm
25 cm	20 cm
30 cm	25 cm
35 cm	30 cm
40 cm	35 cm
45 cm	40 cm

* These are recommendations only.
* Paint abrasion and pressure are the two variables increasing wear speed.

Spray Tips

WEAR ITEMS			
			Graco does not cover wear items: tips, filters, sleeves, rods, packings, repair kits, seats, balls, brushes, dies, ...

OTHER WARRANTIES			
			Components not manufactured by Graco are covered by their own warranties: gasoline engines, hoses, water pumps. All Graco products are covered by a one year warranty period against manufacturing defects. Consult our “Blue Book” (Form No. B0170) for complete detailed information on Graco’s policies (warranty, freight, returns, etc.).

ABOUT GRACO

Founded in 1926, Graco is a world leader in fluid handling systems and components. Graco products move, measure, control, dispense and apply a wide range of fluids and viscous materials used in vehicle lubrication, commercial and industrial settings.

The company's success is based on its unwavering commitment to technical excellence, world-class manufacturing and unparalleled customer service. Working closely with qualified distributors, Graco offers systems, products and technology that set the quality standard in a wide range of fluid handling solutions. Graco provides equipment for spray finishing, protective coating, paint circulation, lubrication, and dispensing sealants and adhesives, along with power application equipment for the contractor industry. Graco's ongoing investment in fluid management and control will continue to provide innovative solutions to a diverse global market.
